

SCIENTISTS' EMERGENCY INSTRUCTIONS

1. REMOVE OIL
2. REDUCE HEAT
3. SET PLANET ASIDE TO COOL

Leaders in business and government worldwide
have failed catastrophically.

WE—you and me—CAN and MUST save the Earth for our children.

JOIN WITH OTHERS WHO HAVE DECIDED TO MAKE THIS HAPPEN

More than a billion people worldwide recognize our climate crisis as a planet-wide
EMERGENCY that requires IMMEDIATE and SERIOUS action right now.

Oil profiteers and other short-sighted fools in positions of power and authority
want us to do nothing. But WE WILL ACT.

To destroy the planet we all live on—or to allow others to do that—is insane.
