A SANERS MOVEMENT PUBLICATION
Please share! Do not discard!

In India, ordinary citizens ousted the British Empire without firing a shot. In country after country, ordinary people threw out the dictator—in Tunisia, in Egypt, in Serbia, in Libya, dozens and dozens of countries. Ordinary people tore down the Berlin Wall, and dismembered the Soviet Empire. Ordinary people—like YOU—have enormous power. But governments and corporations want you to feel powerless.

It is only that feeling of powerlessness that allows foolish leaders to continue pouring gigatons of toxins into your air, water and soil. It is only that illusory powerlessness that enables them to destroy the habitability of the Earth, to doom your children, and to keep you working for them and obeying them.

The alternative is simple. Say no and stop cooperating. Without us, without our active cooperation and support, no "powerful" leaders have any power whatsoever. WE can save our planet. WE can save our children. WE can treat each other with love and respect, instead of hatred and violence and bigotry.

We need to make that decision, and we need to learn from successful movements of the past. Leaders everywhere have failed—in nearly every country and under every system. They are stupidly killing everyone's future—including the future of their own children and grandchildren. We will disempower them for everyone's good. We will establish a better way, better values, and a sustainable and humane way of living.

We are The Saners.

If you love your children, or love life, or love Nature, you are already one of us. You are a Saner. You can sign up, get on the email list, and begin your own actions—however small—to protect and promote goodness and sanity in our world. You can say "no" to hate and "yes" to love.

You can join the playful yet unstoppable force. You can live and laugh and share joy. Because we will embody this better society even as we create it. We offer sanity and kindness while our existing civilization offers only an endless war of all against all, and enables ridiculous elites—dictators, plutocrats, fanatics—to set the rules.

We laugh at their rules. We disobey their orders. We refuse to destroy. We create. We build. We change what needs changing. Ordinary people number in the billions. The failed elites number in the thousands. Once we decide to act, they have no chance.

But someone must go first to awaken the ordinary people. Many people are fearful, worried, anxious. Many have given up in advance. Some do not know they (and we) have power. We must show everyone that we can do this. Indeed, with the number of people who are motivated by love—people who love their children, or love life—we can be unstoppable.

The Saners are HERE. We have begun. We are already meeting, sharing information, developing plans. We are stubborn, determined to use nonviolent non-cooperation in a strategic way, a way that history proves can succeed.

We are going forward. Will you join us?
