STRIKE WHILE THE PLANET IS HOT!

The wrong people are being thrown in prison.

People who, at great personal sacrifice, are protesting to end climate abuse and protect our common home are being sentenced to long prison terms for modest acts, like blocking a highway.

4 - 5 years in prison.

Meanwhile, Big Oil and those with wealth and authority who support them continue and accelerate their destruction of the Earth unabated.

No. It's worse than that. They are being subsidized and assisted with OUR money and labor.

**These are the heroic protesters from Just Stop Oil in UK prisons.
Learn their names and speak out for their immediate release.**

Roger Hallam, Daniel Shaw, Louise Lancaster, Lucia Whittaker De Abreu and Cressida Gethin
