STRIKE WHILE THE PLANET IS HOT!

The era of evil, of greed and cruelty and exploitation, is ending.

WE ARE CREATING A BETTER SOCIETY.

Instead of living within the laws and rules of an evil and unsustainable society that is ruining the Earth, we will seize the initiative and do better.

WE HAVE A VISION AND A PLAN.

The force that has a record of improving societies is nonviolent noncooperation. We, The Saners, will use this force to stabilize the climate and establish a sane and humane civilization for everyone.

WE ARE STARTING NOW.

• • •

We are the sane, caring people of Earth.
We are awakening to our numbers and our power.

You can see that this civilization is destroying itself
by ruining the planet. We will protect our planet.

For yourself, your loved ones, and for everyone living
on this willfully endangered planet, join us.
